

Career Opportunity

Position: Regional Manager Acoustic Products – Middle East

Location: United Arab Emirates

Reporting to: Group General Manager

We have an opportunity for a Regional Acoustic Manager, working with the UK Technical/Engineering team and the Middle East Sales/Manufacturing organisation. The role will involve promoting world class acoustic products to the architectural, recording/sound studios, medical and power sectors.

This position will suit a highly motivated individual, keen to develop his career and has enthusiasm to make a significant contribution towards the success of the business. The ideal candidate should have the following qualifications:

- A Business or Engineering degree
- Considerable experience in acoustic engineering or from the power/engineering sectors
- A proven track record in successful sales and accounts management
- Excellent IT and interpersonal communication skills
- Strong technical, sales or marketing experience in the Middle East
- A proven profit and loss management record
- Ability to work independently, take initiative and have self-motivation skills
- Be a skilled negotiator and solution provider with industry specifiers, end users, engineers and contractors
